We Make Scenery Move!

Creative Conners

We Make Scenery Move!

Creative Conners offers robust machines to lift, turn, pull, track, or slide your scenery, and reliable user friendly control (free software download) to make it all move smoothly on cue. We also offer hardware, consultations, on-site service calls, and education seminars. And it all comes with 24/7 technical support. With our automation system you can have peace of mind that the mechanics are solid, the control is safe, and the cues are ready to be written. Our experts, your scenery. Make it Move.

Stage & Scenery Products:

Stage Machinery

The muscle that does the motion. Winches, Hoists, Lifts, & more.

Stagehands

Stagehands are the brains. They translate your design to movement.

Showstoppers

Emergency Stop to keep you safe. Sensors, interlock, and remotes.

Stage Hardware & Components

Sheaves, cables, parts, and pieces. The little things that make it move.

Set Building Services:

- Wood & Millwork
- Metal & Plastic
- Electrical
- Design & Assembly

Automation Software:

Spikemark software translates your automation ambitions into automated motion. It is the cornerstone of your moving scenery and the secret to your success.
