Fiona Kesby is a CEO, public speaker, and mother of 2 teenagers. She has built a track record in recruitment and sales and is a firm believer in the power and fulfillment of learning for life.

Originally from Brisbane, Fiona moved with her 2 daughters to Cebu, Philippines in May 2015 to lead Go Virtual Assistants (GO-VA) as it scaled from having fewer than 20 full-time team members at the start to more than 400 as of May 2020.

She loves to learn about and share ideas, all tested in the businesses she and her brother Matt Kesby have built, about:

the importance of organisational culture
unleashing human potential
the game-changing advantages of outsourcing, when both the people and technology pieces are done right.
She has enjoyed public speaking engagements on these subjects in events hosted by Asia CEO Forum, Google Business Group-Cebu, and Payoneer.

There is a world of talent that can lift your business beyond your expectations. Fiona and the entire Global Office team would love to help you find them.
