Kings
Education®

Welcome to Kings Bournemouth

The Kings Difference

1. Student-centred ethos

- Highly personalised approach to learning and pastoral development
- Friendly and empowering college community – on a human scale

2. Exceptionally small classes and personalised attention

- Just 4 - 10 in a class at GCSE and A-level
- Maximum contact time with subject specialists

3. Outstanding exam results

- Consistently in the top 10% of schools in England

2018 A-level results:

- A* pass rate 75% above the national average
- A* A pass rate 38% above the national average
- 39% exceeded predictions by two or more grades

2018 GCSE results include:

- 81% A* - B (9 - 6)
- 86% A* - C (9 - 4)
- 48% Grades 9 - 7 in Maths

4. Leading university destinations

- Extensive and individually tailored support for university degree selection and application
- Full UCAS guidance
- Specialist preparation for additional university assessments
- Making the most of your talents and achievements whatever your ambitions; Oxbridge, Medicine, Law, Art and Design
- Work experience, volunteering and research projects

5. Global perspective and opportunities

- Develop a global outlook for your future
- Assess opportunities for further study in the UK or overseas
- Share ideas and concepts with students from across the globe

Message from the **Principal**

“ Welcome to Kings Bournemouth.

We provide a welcoming, diverse and inclusive learning community in which students always come first.

Our campus and location provide an ideal environment from which students can explore opportunities, broaden their global horizons, prepare for progression to leading universities, degree programmes and build successful careers.

We look forward to welcoming you to our college, supporting you in all areas of your studies, personal development and to achieving your full potential. ”

Dr. Andrew Short
Principal, Kings Bournemouth

Your future starts **here**

You are about to embark on the most exciting phase of your life so far.

Right now, you have the choice to go anywhere, do anything, be anyone you want to be.

As you move to the next stage of your education, it's time to take control of your future. Take the *right path*.

The one which fits who you are and who you want to be.

Take your own path

Kings Bournemouth is a modern, international, independent college. A springboard to a new, globally connected future.

We are not a traditional school. We offer an education built for the modern global world which fits entirely around you. We'll respect you as an individual and will work with you to build on your strengths and interests, identify and explore the opportunities available to you, map out and prepare for your ideal future.

We'll work with you as a responsible and independent young adult because that's who you are. But we'll be here with you to support and guide you every step of the way.

You. *Improved.*

“Every teacher is truly passionate about their subject and can really relate to their students. They understand that every student is unique and has a slightly different way of learning; they really cater to this well.”

Joseph, A-level student

The Kings philosophy has always been student-centred.

We evaluate your unique strengths and interests and support you to maximise your full potential.

We work with you to design a learning plan that meets your personal needs and objectives, rather than expecting you to be bound by a single pre-determined approach.

We understand that your aim is to gain entry to a leading university. We will help you to identify the most appropriate degrees and universities to match your individual interests, learning style and character. We guide you to build the strongest possible university application and win your place at the very best university for you.

We'll encourage you to aim higher than you thought possible – and then to achieve your ambition.

Personalised approach to your education

- Supported and empowered learning
- Dedicated care and support for your well-being and academic success
- One-to-one and small group tutorials
- Lectures, workshops and presentations
- Setting targets and learning plans
- Revision clinics

Regular personal assessment

- Regular meetings with your Course Director
- Regular tests and assessments
- Detailed feedback from your teachers
- Written assignments
- Regular examination practice

- Formal report twice per term
- One-to-one university counselling

Monitoring your own progress

- Expert guidance on how to monitor your own learning process
- Support to ensure you take personal responsibility for your own study and achievements

Interactive learning technology

- Interactive whiteboards with lessons stored and available via the student portal
- Free wireless internet
- Access to Technology classroom

**Leave us happy, fulfilled and
thoroughly prepared for the
next chapter of your life.**

YOUR FUTURE
STARTS HERE

Become a global citizen

“The environment here has been amazing, and the relationships [my son] has made. I think Kings has been a great bridge for university because he has come out of the school environment into a college and made a great bunch of international friends.”

Parent of a Kings A-level student

The world of tomorrow will be ever more internationally orientated. The internet and social media have revolutionised the nature of communication and international travel is increasingly accessible.

Citizens of the future will need to communicate on a global scale with technology providing the tools required to facilitate interactions. Cultural awareness, empathy and emotional intelligence will all be important skills for global citizens to nurture.

At Kings, you will make friends with fellow students from all around the world. Right here in Bournemouth.

You may wish to explore the opportunities for further study or work experience around the world at other Kings college locations.

The Kings Difference

“ The teaching is fantastic...
I've seen so much improvement,
massively more than I'd ever
thought. ”

Charlie Protheroe, 2018 A-level student

“There are so many different ways of learning and finding another way that you learn best – whether it is verbal, written, seeing or hearing – and I learned this when I took a test to find out how I study best. The results of that test were incorporated into my lessons.”

Kings A-level student Joe

“That kind of custom learning, he wouldn't have got that if he had stayed where he was. Everyone does learn differently and aside from that you have to be able to engage with your teachers and tutors, enjoy their company, and you don't want to let them down, which is a big thing for Joe. I think that Kings were able to do that and custom design how they were going to get the best out of this Joe; we know that capability is in there, we just need to find it and pull it out!”

Joe's mother, Colette

“100%. That is exactly what it is, they get the best out of you. When you are loving learning, when you are having fun, when you are doing this because you like it rather than because you have to, they do get that belief out of you. It is hard to put into words, it is amazing to think how far I have come, as a journey. The help I have been given, the guidance and support... Just getting me to this point is unbelievable, I am over the moon” **Joe**

Kings Bournemouth is a unique independent college in a unique location.

We are part of a global education group which was founded in Bournemouth and has pioneered an international approach to education for over 60 years.

Wherever we teach we retain a student-centred ethos, which means we treat every student as if they were our only student.

Experienced leadership team

Meet some of the team:

Dr. Andrew Short
Principal

- PhD Applied Physiology
- MSc Medical Radiation Physics
- BSc Physics
- PGCE

Andrew has over 15 years' experience as a senior academic, Head of Science and Head Teacher in prestigious schools in the UK and overseas.

Andy Plain,
Director of Studies,
Academic Programmes

Andy works with the whole academic team to provide each individual student with advice on appropriate individual programmes of study and then to support them with the guidance they need to achieve their potential and progression to university.

Kings Bournemouth is your local, leading independent sixth form college. Our academic and pastoral leadership team is formed of highly experienced professionals.

Between them, they have well over 100 years' experience of providing academic and personal support to young people at the most important time of their lives.

60 years of global success

Kings has been at the forefront of educational success since 1957, when the first college was opened here in Bournemouth.

Today, we teach thousands of students across our 10 worldwide campus locations. They come to us each year from over 80 countries.

Kate Pursglove
UCAS Coordinator

Kate manages students' UCAS applications and supports students to progress on to university. She is also a teacher with over twenty years' experience and ensures that students have the necessary skills to succeed in their Higher Education.

Belen Sullivan,
Accommodation and
Welfare Officer

Belen has been a central figure at Kings Bournemouth for over 21 years. She provides our students with welfare support for all aspects of their life at Kings including accommodation services.

Credentials you can trust

Kings Bournemouth is registered with the Department for Education and inspected by Ofsted. Leading universities also recognise how well-prepared Kings students are to succeed on their chosen degrees and thrive in all aspects of student life.

Our Ofsted inspections are available to view and download at
kingseducation.com/ofsted

“ The principal provides strong leadership... Senior leaders ensure that the curriculum provides students with a broad range of experiences that go well beyond the core courses they have enrolled on... Teachers are adept at welcoming students from a wide range of nationalities and backgrounds. They build trust quickly with students. Consequently, students are motivated to work hard from the beginning of their courses... Their acceptance of each other's differences leads to a strong feeling of community. ”

Extracts from most recent Ofsted Inspection Report
for Kings Bournemouth (October 2018)

“ We have been delighted with the students who have come to us through Kings. Each has immersed themselves in all aspects of University life and has come well prepared for the academic rigours involved. ”

“ [Kings Students] stand out by virtue of their generally above-average degree results and their willingness and ability to immerse themselves in the life of our student community... I can assuredly put these successes down in large part to the sound preparation for university life that Kings students receive. ”

“ We are consistently impressed by the academic calibre of Kings students who seem to be well prepared prior to commencing their studies with us. ”

“ I have always been extremely impressed by the quality of students, the professionalism of the Kings staff and the wonderful commitment that is shown to their students. ”

Modern learning, modern living

Kings Bournemouth is proud of its foundation as Kings first college and over 60 years of students' success.

Bournemouth is a vibrant location with an almost endless range of opportunities for students' personal, academic and experiential development which enhance their CVs and university applications.

Students are encouraged to engage with the local community, be that through research projects or work experience with local businesses, volunteering activities, sporting, cultural or leisure interests.

The area boasts thriving tech and financial services industries, has been an inspiration for many great literary works, has a rich and diverse environment and excellent transport links.

Take advantage of the opportunities on your doorstep.

Student-friendly neighbourhood

Kings Bournemouth is located in a quiet, leafy and affluent residential area, adjacent to Meyrick Park, which provides opportunities for a wide range of sporting and outdoor activities. Bournemouth's two universities, the Arts University, Bournemouth and Bournemouth University are located nearby.

The whole area is popular with students, with the main town centre and world-famous beaches within walking distance. The vibrant and cosmopolitan area of Charminster is also a popular place for students and provides a wide array of places to eat and meet.

The nearby Bournemouth train and coach stations provide excellent transport connections from which students can explore the varied surrounding areas.

A-levels at Kings

A-levels at Kings are defined by a highly intensive, highly personalised structure to ensure effective and efficient learning.

Ultra small classes combine with a supportive, friendly college environment to ensure individual progress is maximised.

Key facts

Start dates: September and January

Minimum age: 16

Length:

Standard: 2 Academic years (6 terms)

Accelerated: 1 Academic year (3 terms),
September start only

Lessons: Average 20 – 25 hours per
week (plus homework and private study)

Class size range: 4 – 10

Two year or one year accelerated A-level

We offer both the traditional two-year A-level with September and January start dates and an accelerated, intensive one-year option, subject to availability.

4 – 10 per class

All A-levels are taught in very small classes of just 4 – 10 students to maximise teacher contact and interaction time with students.

Extended Project Qualification (EPQ)

The EPQ provides students with an opportunity to conduct research in to a subject area of their choice and develop their study skills in preparation for university. The EPQ is highly valued by universities and carries UCAS tariff points. At Kings, the EPQ is available as an option for all A-level students as part of your individual study plan.

Maximum options

The selection of A-levels is a key issue for our students. Our aim is to provide a range of subjects which offer our students the maximum flexibility for progression to leading universities and degrees. Our academic and UCAS teams liaise closely with admissions tutors to ensure we have a detailed understanding of university entrance requirements and preferred subjects. Our provision is informed by these discussions and has the facilitating subjects, as defined by the Russell Group, at its core.

A-level reforms have added a new dimension to A-level decision making. Individual learning plans are discussed and agreed with every student, including consideration over the number of subjects taken and the value of sitting AS exams in the first year. Each student's progress is carefully monitored throughout their time at Kings.

High achievers

We are proud of the A-level results achieved by our students and celebrate each success with them. Every year many of our students go onto the very best universities in the country, including Oxford and Cambridge.

“I am not a typical student here. I am doing two years in one – I don't think it would have been possible in another college to manage this merged curriculum. This flexibility is what I really like about Kings. Also the small class size”

Artur achieved A* Mathematics, A* Further Maths, A Economics, A Computing at Kings Bournemouth and progressed to read Economics at the University of Warwick

A-level subjects

Our core curriculum is based around the 'facilitating subjects' as described by the Russell Group, to provide the greatest range of progression to degree. The following subjects are typically taught.

We are also able to offer additional subjects, depending on demand and availability. Please contact us to discuss your specific interests.

A-level Art and Design

These courses will develop your intellectual, imaginative, creative and reflective skills. You'll also develop investigative, analytical, experimental, practical, technical, and expressive skills, an aesthetic understanding and critical judgement. You'll gain an understanding of the inter-relationships between art, craft and design, and an awareness of the contexts in which they operate as well as knowledge and understanding of art, craft and design in contemporary society and in other times and cultures.

A-level Biology

Biology is probably the most accessible of the three sciences, as it can be related naturally to all aspects of life. You study carefully, and in detail, how life in the world works: how our bodies work; how diseases stop them working; how plants grow; how life may be threatened by poisonous substances; how ecosystems work; where energy comes from and how organisms use it; how genes and evolution affect us all.

A-level Business Studies

This course introduces core business concepts. You'll develop your understanding of how businesses work, of the current global issues they face and their impact. You'll explore decision-making tools to take a more scientific approach to management.

You'll investigate, analyse and evaluate business opportunities and issues with real-life case studies and use qualitative and quantitative methods to take a more strategic view of decisions and recommendations.

A-level Chemistry

Chemistry is the study of all chemical substances and how they can change. You'll learn to understand these and see in new ways the things that make up the world; your food, fuels and fabrics, building materials and manufactured goods, the air you breathe, the tools you use. You'll study atoms and reactions, bonding and structure, hydrocarbons, polymers and alcohols, energetics and transition elements. You'll use Mathematics to describe and understand chemical ideas. You'll devise and carry out practical experiments to test the principles you are learning.

A-level Economics

The course develops an understanding of economic concepts and theories through a critical consideration of current economic issues, problems and institutions that affect everyday life. It also teaches you to apply economic concepts and theories in a range of contexts and to appreciate their value and limitations in explaining real-world phenomena. You will analyse, explain and evaluate the strengths and weaknesses of the market economy and the role of government within it.

A-level English Literature

Students will study a range of English literature texts, chosen from a broad genre and historical perspective. This will include a compulsory Shakespeare play in addition to a 20th century text.

A-level Geography

The course will enable you to acquire and apply knowledge and understanding of physical and human processes, their interactions and outcomes over space and time, through the study of places and environments. You'll also develop an understanding of the opportunities, challenges and constraints that face people in different places and environments.

A-level Government and Politics

The course develops a critical awareness of the nature of politics and the relationship between political ideas, institutions and processes. You will acquire knowledge and understanding of the structures of authority and power within the political system of the UK and of other countries. You will also develop knowledge of the characteristics of the legislature, the executive and the judiciary, of the rights and responsibilities of the individual, and of ideologies, theories and traditions.

A-level History

The course develops your use and understanding of historical terms, concepts and skills. The periods studied develop your interest in, and understanding of, important developments allowing you to understand the wider perspective of change and developments over time. You will study significant individuals, societies, events and issues, analysing different historical perspectives, for example aesthetic, cultural, economic, ethnic, political, religious, scientific, social and technological.

A-level Maths / Further Maths

The course will develop your understanding of mathematics and mathematical processes and your ability to reason logically and to recognise incorrect reasoning. You will construct mathematical proofs and extend

your range of mathematical skills and techniques for use in more difficult unstructured problems. You'll also develop an understanding of coherence and progression in mathematics and of how different areas of mathematics can be connected.

A-level Modern Languages

You will follow a course of study in one or more modern language, depending on availability. Languages may include French, German, Spanish or Portuguese.

A-level Physics

The course will develop your essential knowledge and understanding in physics and, where appropriate, the applications of physics in new and changing situations. You'll develop an understanding of the link between theory and experiment, and will appreciate how physics is used in present day society. You will recognise the quantitative nature of physics and understand how mathematical expressions relate to physical principles.

A-level Psychology

This course will develop your knowledge and skills across a broad range of topics related to Psychology. You will examine cognitive theory as well as different aspects of Psychology – developmental, social and biological. You will also develop knowledge of psychopathology as well as practical implementations of psychology and an understanding of research methodology.

Oxbridge Preparation

At Kings, our aim is always to help students realise their full potential. For some, this will include ambitions to progress to the world-renowned and highly selective universities of Oxford and Cambridge. Our team of experienced experts support students throughout the application process, utilising their specialist knowledge of the whole process and requirements.

Whilst every Oxbridge application will be assessed on its individual merits, all students will need to demonstrate that they are fully-prepared for their academic rigour and to both benefit from and contribute to their respective academic communities. Students will need to illustrate their:

- Outstanding academic ability
- Deep and genuine interest in the subject area
- Potential for the future

We work closely with students who are appropriately motivated and qualified to help them develop and prove that they are realistic Oxbridge candidates. This is an individual process and includes support for:

1. A-level Grades

Oxbridge are looking for outstanding academic results, this includes achieving exceptional A-level grades, with A*/A grade profiles in pre-requisite and relevant subjects. The EPQ can add further UCAS Tariff points and demonstrate independent study skills.

2. Additional pre-entry assessments

The application process for many Oxbridge courses will require additional written pre-entry assessments to demonstrate aptitude for the target degree course. We will advise and support you on the specific requirements and preparation.

3. Demonstration of relevant, skills, experience and enthusiasm

Students are expected to have done more than followed a set syllabus. They need to demonstrate their individual passion and drive. Kings specialists will guide you to ensure you have appropriate experience. This may be achieved through a range of activities including: extra-curriculars; wider reading; work shadowing and research projects; attending University Open Days, open lectures and talks, speaking with professionals and Oxbridge alumni.

4. Compelling personal statement

The personal statement is an opportunity to distinguish yourself from other candidates. We help you to craft a statement which is relevant, concise, personal and written to engage admissions tutors to want to learn more about you.

5. Outstanding interview

Oxbridge interviews are designed to assess your academic potential, intellectual capacity and ability to engage in new ideas beyond the scope of previous learning. Whatever the format, Kings provide you with extensive practise and constructive feedback to ensure you are prepared to make the best possible impression.

Kings GCSE and A-level student, Tim, achieved A*A*A*A* (2018) and progressed to read Engineering at University College, Oxford

Medical Preparation

Medicine is one of the most demanding, rewarding and important paths a person can follow. By following a career in the medical profession, be it Medicine, Veterinary Science, Dentistry, or a related field, you will be making a daily, active difference to the quality and longevity of lives and therefore playing a crucial role in society. It is therefore not surprising that only the most able and committed people achieve this goal.

Kings students are supported to fully understand the range of opportunities and prepare for those they are most interested in. We have developed a carefully planned programme to support students with the ambition of pursuing careers in medicine and allied professions which includes:

1. Academic development

With a focus on gaining outstanding grades in Biology and Chemistry plus one or two more subjects, often Mathematics, Further Maths or EPQ.

2. Senior Mentor

Providing specialist support throughout the preparation, selection and application process.

3. Research

Guiding your research into the most suitable medical school, their requirements and application processes.

4. Medical school visits

Arranging visits to and from medical schools and universities to broaden your understanding of the opportunities and requirements.

5. Aptitude Tests

Gaining experience and honing skills and strategies in preparation for required aptitude tests such as UKCAT and BMAT.

6. Work experience, shadowing and research

Assisting you to identify work experience, shadowing and research opportunities in relevant settings within local hospitals, care homes and medical practices.

7. Extracurricular and enrichment

Providing a varied programme to develop personal and social skills and engage in enrichment opportunities. These include regular visits and special study sessions at the University of Oxford School of Medicine. Our students have taken part in student-based trials carried out by the Department of Medicine. We also assist you to identify develop relevant skills in other areas in which you may have interest or participate.

8. Personal statement

Helping you to stand out to admissions tutors. Developing ways of communicating your achievements, aptitude and interests to your best advantage in your personal statement.

“After doing my AS level at Kings, I spent 2 months in a hospital doing some volunteering. During those 2 months I was able to shadow doctors, nurses, physical therapists and occupational therapists and I knew from that experience that Medicine was the right choice for me.”

Kings A-level student Jeremy,
now reading Medicine at Queen's
University, Belfast

9. Interview practice

Supporting you with practice, feedback and development to maximise your performance in the varying forms of interview you might encounter, including individual and panel interviews and MMIs.

10. Medical Summer School

Providing an opportunity, prior to commencing your a-levels, to developing your understanding of the requirements in preparing for Medical School applications.

“We have an agreement with local hospitals which allows students to have direct experience of working in an emergency department or ward, shadowing doctors in their practice. Aside from helping students achieve higher grades in their studies and providing an understanding of the career path, work experience can help towards making choices for university courses.”

Dr. Andrew Short, Principal

GCSEs at Kings

GCSEs at Kings offer highly personalised learning and very small classes to ensure maximum student-teacher interaction.

At Kings Bournemouth we offer both a standard two-year and an accelerated one-year GCSE programme with subjects that include Mathematics, English, Art, Biology, Chemistry, Economics, Information Technology and Physics.

Key facts

Start dates: September

Entry level: Minimum age 14

Completed 9 years of schooling
with good results

Length:

Standard: 2 Academic years (6 terms)

Accelerated: 1 Academic year (3 terms)

Lessons: 40 – 42 lessons per week.

Class size: 4 – 10

Learning outcomes:

- Gain subject knowledge in preparation for A-levels
- Develop study skills required at Sixth Form level

Course structure

Mentoring for under 16s

Includes:

- Full supervision during college hours Monday – Friday
- Welfare Counsellors
- Half-termly reports
- Separate Student and Parents' Portals
- Regular contact with parents on request

“ [In my old school] I had a class with about 30 people. Here, the teachers have a focus on you so can help you much more easily. There are usually about 6 of us in a class. One of the best things is that it's an international school so you can meet people from different cultures and you can learn a lot about them. ”

Sara, Kings GCSE student

Total learning

A smiling woman with long brown hair, wearing a dark patterned top, is looking towards the camera. She is in a library or study area, with bookshelves filled with books visible in the background. The lighting is warm and slightly blurred, creating a soft atmosphere.

Acceptance to the most selective universities requires more than just good grades. As a consequence of A-level reforms, universities need to use a basket of measures to assess applications.

You will need to demonstrate your understanding of the demands, skills and attributes required for the successful completion of your chosen degree programme. This should be evidenced through a broad and relevant range of interests and experience.

Successful students are those who make the most of their opportunities, inside and outside the classroom, and at Kings we ensure that there is plenty on offer.

Extracurricular activities

THE DUKE OF
EDINBURGH'S AWARD

Provides a unique opportunity to take part in new activities, expeditions and volunteering.

Student Council

Gives students the opportunity to present student views to staff and to organise in-college events, such as fundraising activities and end-of-year proms.

Kings Business Enterprise

A great opportunity for you to learn from visiting business experts about running your own business. You can form your own company selling real products and services, issue shares and appoint key people.

Model UN

Helps students learn about diplomacy, international relations and the United Nations. It develops speaking, writing and debating skills.

Work experience and volunteering

Subject to availability, there are opportunities with select local companies to experience a variety of careers. Experience in other special areas, such as medicine, may also be possible.

Sports and fitness clubs

(e.g. badminton/basketball/football/chess)

You can take part in a range of sports. Whether you want to play just for fun, or would like to join a College team, there's something for everyone.

Creative clubs

(e.g. performing art/photography/textiles/guitar)

Open to all students at Kings, irrespective of your academic studies. Enable you to supplement your in-class learning or develop an entirely new hobby or skill.

Academic clubs

(e.g. maths/science in the news/current affairs)

Academic clubs are a great way for students to supplement their in-class learning in more relaxed environments.

National Citizen Service

NCS is a nationwide, four-phase programme specifically designed to provide you with many different experiences, build new skills and improve your confidence.

Educational visits

These help your learning come alive. Typical examples include local businesses, law courts, exhibitions, galleries, historical sites, field trips and university departments.

Lecture programme

Free lectures after lessons cover a variety of topics of general academic, linguistic or cultural interest.

Clubs and societies

All students at Kings can take part in regular clubs and societies to learn new skills or develop existing hobbies and interests. There are a range of creative clubs, sports and exercise clubs, as well as clubs which cover more academic subjects, and the Student Council. Other popular events during the academic year include the May Ball; drama productions; seasonal celebrations; university fairs, visits and guest lectures.

united world schools

A Different School of Thought

At Kings, we are proud to partner with **United World Schools** – a charity that builds and sustains new schools in some of the world's most disadvantaged regions.

We have committed to support the work of UWS by funding the building and resourcing of at least one new school each year, which we do through student and staff fundraising.

Next step: university

Kings students have recently won places at all of the UK's top 30 ranked universities and progressed to degrees in a broad range of subjects.

The universities recognise that Kings students have been expertly prepared.

Your path to university

At Kings, our students consistently win places at the UK's top universities.

We encourage and enable each student to be the best they can be, and to set their ambitions as high as possible.

Whether you are aiming for a top ten university, or a university which is recognised as a leader in your intended field of study, we'll help you get there.

“There are only a couple of universities in the UK that do mining engineering – it was a challenge to get in! I had a lot of help from my course director and my teacher helped me with the personal statement and application. I used to wake up every day and wonder if I'd make it – if I'd get in to this university. You just want to do well and to get what you're aiming for, and when you get it, it's a great feeling.”

Filomena, progressed to read Mining Engineering at the **University of Exeter**

“Kings really helped at all stages of the application – from the personal statement to what to choose. I got an offer from another university, but my academic director told me that I could aim higher. They're also really responsible though and are realistic about your choices.”

Laeticia is now studying for a degree in Politics and International Relations at the **University of Bath**

1. We know what universities are looking for

- Academic ability alone is no longer sufficient for acceptance to the best UK universities..
- Kings students win places at the very best universities because we develop their full potential – inside and outside of the classroom.

Learn more about Kings' expertise in university applications on our blog, **Kings Life**

2. We guarantee highly qualified teachers

- All teachers are subject specialists. Many hold a second degree or equivalent qualification, including PhD.
- All Foundation teachers are also A-level teachers.

3. We support every student individually

- We ensure every student benefits from regular progress testing and skills analysis.
- Our pathways to university always include choice in order to accommodate differing abilities, ambitions or changes in focus. Our dedicated care and support teams are always available for help and advice.

4. We ensure very small classes

- Smaller class sizes means greater teacher contact time and a more immersive learning experience.
- GCSE and A-level:
4 - 10 students per class.
Art & Design Foundation:
4 - 12 per class.

5. We deliver a total learning system

- The Kings Academic Enhancement Programme makes learning come alive by building in practical, real-world experience to complement class-based study.
- **Kings Classmate** is our interactive Virtual Learning Environment. It provides resources for guided and self-study outside class.

Learn more about **ClassMate**

6. We provide professional university guidance

- We provide expert university guidance for one of the most important decisions in life.
- Our comprehensive University Application Programme provides a clear application plan to the widest choice of universities.

UNIVERSITY

Personalised university counselling

“ Students receive effective advice about their next steps when they finish their courses. Teachers’ advice about applying to university is well developed. ”

Extract from most recent Ofsted Inspection Report
for Kings Bournemouth (October 2018)

Our dedicated **University Application Programme** runs alongside your main academic course. It provides all the information, guidance and support you need to ensure you secure a place at the best possible university to suit you.

You will be assigned a personal university counsellor. They will work directly to help you research, select and apply for the ideal universities for your future plans.

The Kings University Application Programme

Weeks 1 and 2

- Introduction to your university options and UCAS registration

Week 2 onwards

- Regular counselling sessions from your personal UCAS Adviser, including support in drafting your personal statement

Week 3 onwards

- Practical first-hand information about your university options
- Subject specific workshops, university guest lectures, fairs, meetings and visits
- Guidance through the application process and ensuring deadlines are met
- Support after your UCAS submission and assisting with university admissions tutor communication

Our support is tailored to your individual needs and achievement of the best outcomes. We like to remain in contact with you through our alumni network.
