About Spires Online Tutors

Spires is an online tutoring marketplace that lets students find professional tutors and then schedule, pay for, and record online classes. It's high-tech and provides a seamless user experience; It solves students' educational needs by providing highly-qualified and vetted tutors at a price that suits their budget. It's quick and easy and removes physical barriers to finding the best tutors. Simultaneously, it provides a sustainable source of new clients for tutors - perhaps their primary business need. All Spires tutors must have 2 years of experience; pass an interview; demonstrate their ability to tutor online effectively; and pass enhanced DBS and KYC identity checks. Payments are extremely fast and fully automated in all major currencies and every feature of the platform has been designed to benefit the tutoring process. The platform takes care of everything so that students and tutors can focus learning. Launched in 2014 by visionary Oxbridge graduates, Spires Online Tutors stands as the world's inaugural online tutoring marketplace. Breaking traditional geographical barriers in education, Spires allows learners globally to access high-quality tutors in over 400 subject areas. Ranging from core STEM subjects at GCSE, A level or IB, through to finance, social sciences or dissertations support at the university level. Oxbridge entrance support, Professional certification, and English language academic support for non-native English speakers are also available. Spires supports the wider tutoring industry by offering white label API access to the platform, allowing niche agencies and independent tutors to grow their brands. Spires Online Tutors, 60 Sheffield Terrace, London, W8 7NA, United Kingdom Phone: +44 (0) 207 846 0126
