

Inspiration | Vertical Sliding Sash Windows

Authentic Sliding Sash Windows

With the benefits of modern day technology

Your property is so much more than just a house, it's your home and normally your largest single asset. So when you want to capture the look of a traditional vertical sliding sash window, our PVCu windows are the perfect solution.

Manufactured to maintain the elegant proportions of traditional sash windows, whilst incorporating the very best of modern day technology, enables you to enjoy the low maintenance and high security of PVCu without the problems associated with timber sash windows. Your new windows are guaranteed for 10 years as they are

manufactured from the highest quality materials under the strictest quality controls.

Our windows feature tilting upper and lower sashes for ease of cleaning, low line beads and gaskets for improved sight lines, energy efficient glass to reduce your heating bills, and above all they are quality assured for your peace of mind.

From a terraced house to a stately home, our vertical sliding sash windows ensure that your property retains its character and charm. You can choose from a wide range of styles, colours and hardware options to complement your home perfectly.

The elegant proportions of traditional sash windows have been maintained

Our vertical sliding sash windows ensure that your property retains its character and charm

- 10 Year Guarantee
- CMS Gold Licence for security
- Secured by Design available
- Manufactured to your sizes and specs
- Made in Britain

Modern windows that look like the original

Bring elegance and style to your home

Many buildings have been subject to inappropriate window replacements that have ruined the character and look of the property. Our windows enable you to install new windows that blend into their surroundings - city or countryside, commercial or residential. Our heritage vertical sliding sash windows are perfect for conservation or traditional projects, a classic look with modern advantages.

Sculptured Georgian bars, sash horns, two sliding sashes and a choice of hardware, together with a selection of beautiful finishes, all add to the traditional feel of these beautiful windows.

Choose from the classic White PVCu, or a range of options including Golden Oak, Cherrywood, Irish Oak, Cream and White woodgrains, see page 10 for full options.

CMS Gold Licence

Our vertical sliding sash windows have been designed with not only elegance and authenticity in mind, but security too.

Vertical sliding sash windows are fully reinforced, not only to prevent deflection in windy weather, but also to strengthen the sashes so that they are capable of carrying the weight of the glass and provide a strong secure fixing for handles, latches and other components.

The balances maintain the equilibrium of the sash window at all points of travel and robust locking devices ensure the security of your home.

Our vertical sliding sash windows come with the CMS Gold Licence for security. The gold licence is the result of a complete security testing package that ensures we are fully compliant with PAS24:2012.

SBD focuses on crime prevention of homes and commercial premises and promotes the use of security standards for a wide range of applications and products, including windows and doors.

Please note that the 'Secured By Design' specification is not standard and must be requested as part of the window specification.

Robust locking devices ensure your home is secure

Easy maintenance and cleaning

No more sanding and painting

Both sashes tilt
open independently
for easy access to
clean inside
and out.

Both sashes slide
up and down, great
for ventilation.

You can now avoid the need for costly cleaning chemicals, varnish and paints. Manufactured using the latest modern materials, your new windows will not rot, flake or peel. Your new windows will simply require an occasional wipe down with a damp cloth.

The PVCu vertical sliding sash windows not only slide up and down like traditional windows, but tilt inwards so that the panes can be accessed making it easy to clean your windows from the inside.

windows will
not rot, flake or
peel

Energy efficient and environmentally friendly

Recyclable, lead-free and energy saving

Today's window designers have far more challenges than previous generations. Not only do they need to design windows to withstand the elements, but they have to consider the environmental impact too.

Our windows are not only lead-free, but also carry an 'A' energy rating as standard, with Low-E double glazed units to keep the heat in, and help reduce your heating bills.

The windows also have brush seals around the openings for exceptional draught proofing.

Choosing PVCu is an environmentally friendly choice, as the majority of end of life PVCu windows can be recycled over and over again to produce new windows.

By purchasing our vertical sliding sash windows you are not only keeping your home warm all year round and reducing your heating bills, but also helping the environment.

Colour options

Our sliding sash windows are available in virtually any colour you can think of!

Every window we manufacture is made to order. Every home and personal taste is different so we can offer you a wide range of styles, colours and hardware to ensure that your new window will suit your property perfectly.

Our vertical sliding sash windows are available in the colours below. The foiled finishes bring windows to life with a glossy, freshly painted, realistic wood effect.

You also have the option to have your windows Smooth White on the inside and foiled on the outside.

Finishing touches

A choice of features and hardware

High quality balance weights and hardware are fixed to integral reinforcements for reliable and smooth opening time after time. Hardware is available in White, Gold, Chrome and Satin Chrome.

To achieve a traditional look without the need for individual units of glass, our vertical sliding sash windows offer a choice of internal/external glazing bars. Run through sash horns provide another decorative option for a truly authentic look.
