

INFORMATION FOR PARENTS

Please report to the clinic at the address provided. For the comfort of our patients we would advise that only the two parents accompany the baby to the clinic. Expect to spend about two hours at the clinic, there is a facility for the parents to wait whilst the child has the procedure performed.

Your baby will be assessed by the Doctor to ensure he is well. The Doctor will ask some questions about your baby and his health since birth. If the Doctor thinks your child is not suitable a full explanation will be given as to why and alternative arrangements will be made. We would also wish to observe your baby for approximately half an hour after the procedure has been completed to ensure that all is well.

Both of the parents must sign a consent form agreeing to the procedure. Should you at any time not fully understand the procedure, staff are on hand to answer your questions.

You will be given an aftercare leaflet on how to care for your son after the circumcision. You can also view this information on our website.

If for any reason you are concerned about your baby, please ring the 24-hour helpline given upon discharge from the clinic.

Please note a total fee of £200 applies for this procedure this includes consultation, assessment, the operation and any follow up that may be required. You may pay by cash or card. On arrival at the clinic, the receptionist will take your payment and give you a receipt, if required.

If the visit is limited to a consultation only the fee is £50.

If the consultation leads to the operation but the procedure is not completed because of any medical or surgical indications the fee is £100.

Please be aware we are working to ensure that you are seen at your appointed time however due to patient needs or clinical circumstances there may be a delay. We would therefore request your patience.

On leaving the clinic please make sure you have the information leaflet, GP discharge letter and any medication that may have been prescribed.

We are here to provide the best possible care for your baby and are very happy to help and assist you in any way possible.

Thank you for using the Glasgow Circumcision Clinic.
