Casalgrande Padana Tiles

A Perfect Choice for Commercial Spaces

*Casalgrande Padana tiles can add style and classiness to your commercial space.
The article lists the top collections of Casalgrande Padana tiles.*

Are you planning to give your commercial building a makeover? When you plan to renovate your commercial structure, you have the opportunity to transform the space from the ground up. To start with, the right foundation is important and this means selecting the right type of flooring. Attractive tiles can enhance the décor and add a touch of style to a dull structure. Reliable and established tile distributors in New York offer a wide range of tile collections that perfectly suits any stylistic preference. [Casalgrande Padana tile](#) collections are available in a wide range of styles, colors, patterns and textures.

Created in porcelain stoneware, this tile collection is a perfect blend of modern technology and innovative style. From sleek and modern to rich and classic, Casalgrande can create the perfect focal point of any room in your building. With easy cleaning ability and minimum maintenance required, Casalgrande porcelain tile collections are ideal for both walls and floors. These tile collections can offer the elegance you need for your floors/walls without all of the time and effort essential to keep them looking their best. Here are some top collections of Casalgrande porcelain tiles –

- **Cement** – Available in 12 different types, cement tile collections are perfect for use in contemporary living spaces. These tiles feature high flexural strength, resistance to wear, abrasion, chemical attacks and thermal extremes; and makes cleaning easy. Top collections include - Beton, Cemento, Feel, Living, Citta, Econcrete, Loft, Manhattan, Stonewash, Venezia, Resina and Spazio.
- **Colors-Monolithic** – Colors-Monolithic tile collections are suitable for both dry and wet areas. Perfect for high-traffic areas, these tiles are available in different colors and sizes and premium models include - Architecture, Earth, Unicolore and Caleidoscopio.
- **Granite** – Available in varied colors, sizes and surfaces, these fully vitrified unglazed porcelain stoneware collections can be used in both wet and humid rooms. Top collections include – Granito 1, 2, 3, 4 and Granito 1-EVO. Different color patterns offered include – Arkansas, Catalogna, Colordo, Dakota, Everest, Georgia, Iberia and Giamaica.

- **Marble** - Casalgrande Padana offers four different types of marble tile collections –
 - ✓ **Kontinua** – Ideal for use in commercial spaces, Casalgrande Kontinua tiles features large format which offers visual uniformity throughout the rooms.
 - ✓ **Marmoker** – Known for its strength, aesthetics and practicality, this high-performance porcelain stoneware combines the luster and precious chromatism of extracted marble. These tiles are offered in 34 different color variants.
 - ✓ **Marte** – Inspired by the beauty of natural marble, this tile collection is available in 11 sizes, 17 colors and 4 surfaces.
 - ✓ **Onici** – Inspired by the extraordinary appeal of precious stones, **Casalgrande Padana Onici** range brings style, elegance and magic to all surfaces. Made from high-performance porcelain stoneware, Onici collection is available in six different color variants which include - Avorio, Bianco, Quarzo, Miele, Striato and Ghiaccio. These tiles feature 6.5 mm thickness and extraordinary lightness.
- **Metallic** – Metallic series uses novel technology and involves complicated manufacturing processes to create a highly technical tile. Tiles in the metallic series are directly subjected to a unique metalizing process in the finishing layer, which evidently reflects its texture and feel. Metallica and Steeltech are the top two collections offered. Color variants include Beige, Ferro, Rame, Fero, Grigio, Corten, Antracite, Inox and Zinco-Titanio.
- **Stone** – Ideal for use on floors and walls (both interior and exterior), stone tile patterns show up the natural feel of the surface, giving it a glossy finish. Casalgrande Padana porcelain stoneware tiles are made using only a few, well-balanced natural elements, such as earth (clay, feldspars, sand, and kaolins), fire, air, and water. They do not contain plastics and are completely recyclable, fire-resistant, and do not release harmful substances, not even in the event of a fire. Top stone tile collections include - Amazzonia, Kerblock, Limestone, Titano, PietraPiasentina, Patio, Palatino, Lavagna, Chalon and more.

- **Wood – Wood look porcelain** tiles are highly resistant against impacts, abrasion, scratches, weather agents, fire, stains, and chemicals. These tiles are dry-pressed and are non-absorbent and environment friendly. Wood tiles are offered in nine different ranges like - Antique Wood, Class Wood, Country Wood, Geowood, Metalwood, Newood, Parchi, Tavolato and Ulivo. Different color variants include – Black, White Oak, Moka, Antracite, Chiaro, Scuro, Zebrawood, and Amazique.

If you are planning to renovate your commercial space, it is important to choose tiles that not only look attractive, but also fit correctly into the available space. The type of tiles you choose must be durable and ideally last a lifetime. Make sure to purchase tiles from a reliable [porcelain tile distributor in New York](#). Reliable tile distributors supply **Casalgrande Padana tiles in New York**. Such dealers offer a wide range of tiles along with other benefits like easy installation, cleaning and efficient maintenance support.
