The ROLLAWAY

Help prevent slips and falls outdoors with

The Rollaway Portable Safety Stairs

The Rollaway is a lightweight, durable, and easy-to-use portable step system designed to reduce the risk of slips, trips, and falls on steep or uneven terrain. With a starting weight of 12.6kg, The Rollaway provides fast, safe access wherever you need it most – whether you're in grounds care, rail & road, conservation, or water & waste management.

Why Choose The Rollaway?

Fast set up Simply roll out and secure for instant safe access in seconds.

Portable Carried and set up by just one person, provides for efficient access to hard-to-reach sites.

Durable Made with strong EPDM rubber and stainless steel, built to provide stability in tough conditions.

Safe Prevent accidents and downtime by reducing the risk of slips and trips on site.

Cost Effective A fraction of the cost of permanent stairs, save money on installation, labour, and delays.
